Dear Fellow Breeders:

It is indeed a pleasure to invite you to join us for our Second Production Sale. We have been able to put together 42 lots that we are proud of and have invited several of our fellow breeders to join us in the sale with guest consignments.

Even though we run nearly 200 breeding cattle it is not easy to maintain a herd and part with a large number of cattle in a public sale and private treaty each year; however, with a great deal of pride we present the production of our herd. This is 36 years of Shorthorns and Polled Shorthorns on our farm and even though there have been some lean years, Shorthorns have kept us in a balanced agricultural program in our some 1200 acres, which is part of my parents' homestead.

We have had many fine reports from cattle sold, bred to our herd bull battery, and we, too, can speak well of the Service of these sires. They are modern in type and conformation, as well as pedigrees. With pride we refer you to the following pages that can tell you more about them.

Selling in the sale will be many top cattle from the herds of Jack Dobbins, Dr. George Smith, Jennings Tucker, Cliff Mulligan and Woodrow Bridwell. It is my opinion this group of cattle will be comparable to Shorthorns and Polled Shorthorns to sell anywhere in 1973, and we are proud to see the industry again call on our breed for foundation breeding stock as has been the story throughout the history of beef cattle in North America, as well as other parts of the world.

We especially invite the buyers in our past sale and hope they will bring some friends and come back for this special event. Please call on me if I can be of further service before or during the sale. Again, we are holding our sale at the clean and modern Anderson Stockyard, as shown in the information elsewhere in the catalog.

Sincerely,

T. Elias McGee and Family

STATEMENT OF SALE MANAGER

The Second Annual Production Sale of T. Elias McGee and Fellow Breeders will be of significance to the breed and the industry at large, selling in this sale is one of the largest numbers of Shorthorns and Polled Shorthorns to go before the public in several years in the southeast. Moreover, the quality that is being offered represents modern breeding and management practices. Again, the industry is calling for the stalwart breed, "Shorthorns." The sources of this magnificent breed are not so many, thus, a rare opportunity is presented in a wonderful young offering of Polled Shorthorns and Shorthorns.

These breeders are not amateur ones--they are much like cattlemen of the past who made Shorthorns a part of their livestock agriculture and stuck with it over a long period of time. Thus, it is worthwhile to buy from men who can be called breeders.

Last year breeders and cattlemen gave enthusiastic support to their First Production Sale and a number of cattle have gone out from these herds by private treaty, enlarging the interest in the breed, and expanding numbers. We anticipate the pleasure of having all of you who were on hand last year, and many more for this important event.

May I call your attention to the outstanding Shorthorn and Polled Shorthorn bulls that are in service in these herds and whose Get and Service are part of the offering. Nowhere can it be excelled and you can feel you are working with breeders who have a special interest in their cattle as well as those of you who buy from them.

Kindly feel free to call on me or any of them if we can be of service in any regard during the sale.

W. Scott Wilson

A feature of the sale is the sons and many daughters, as well as service, of this sire offered in this sale. He was purchased in the Colonel George H. Miller, Upson Farms' Dispersal, as a promising young bull, and has proven himself worthy of a strong spot in the McGee breeding program. Sired by the famous *Timberlee's Consort* 44X who sired an All American in his first calf crop, and weighed over 1850 lbs. as a young bull in the Upson breeding program. He is backed up by some of the most outstanding Polled blood of the industry. 12 daughters sell and five bred to him.

Here is a rich red son of Lanedale, Rodney 12th, X, bred by Ellis L. Shafer. His grandsire, Rodney Keynoter X was bred by Pennsylvania State University. This is one of the most outstanding Polled bulls to sell in the southeast, or perhaps over a wider area during 1973. He is dark red, excellent in conformation with growth that excels and is noted without reference to information. If you are interested in a bull with performance and pedigree that has been managed well, as a future prospective herd sire, we believe you will find this bull very much to your liking.

An excellent, solid red bull with weight and growth for age-
(Polled).

Ready for some good herd is lot 44, with good length and growth for age.

A proven sire. We are retaining most of his daughters in our herd. He has proven to be a 100% de-horned in our herd. His color is deep red. He is of high quality with excellent length and scale, and would have to be termed as the modern kind. He was bred in the famous herd of Lewis I. Phiman, Concordia, Missouri, a line of breeding that is known throughout North America. His dam is topped out by three generations of the Beauty Coronita family that has excelled in that herd production-wise. We are reducing our herd this year, therefore, making this bull available to some other breeder who has a top herd to put him on.
